Foreword	xiii
Introduction	1
What Is Teaching Science with TOYS?	1
What Are TOYS Teacher Resource Modules?	1
How Is This Resource Module Organized?	2
Employing Appropriate Safety Procedures	7
Pedagogical Strategies	9
Using National Standards for Science Education	9
Science as Inquiry	10
Physical Science	11
Relating the Activities in This Book to the National Standards	11
Effectively Incorporating the Activities in the Classroom	11
Webbing and Charting	12
Selecting the Activities	13
Challenging Your Students	13
Cooperative Learning	14
Kinesthetic Demonstrations and Simulations	14
Class Projects	14
Unit-Level Cross-Curricular Strategies	15
Science, Technology, and Society Links	15
Supplemental Activities	16
The Science Process Skills	18
Science Process Skills Matrix by Activity	19
Assessment	20
References	21
Outside the Classroom	24
Further Readings	33
Teacher Content Review	35
Particles and the Senses	35
The Particle Nature of Matter	36
Atoms, Molecules, and Ions	37
The Sense of Touch	39
The Sense of Sight	41
The Sense of Hearing	45

The Sense of Smell48
 The Sense of Taste 51

Annotated List of Activities 53

Touch Activities 57

Feely Balloons 59
 Corn Starch Putty 67
 Gluep 71
 Are All Mittens the Same? 79

Sight Activities 87

M&M Classification 89
 Fixed and Unfixed Shapes 97
 Balloon in a Bottle 105
 Tissue in a Cup 113

Hearing Activities 119

Big Ben 121
 Paper Cup Telephone 127

Smell Activities 133

Identifying Substances by Smell 135
 Smelly Balloons 141
 The Scratch-and-Sniff Challenge 151

Taste Activities 159

Jumbled-Up Jello 161
 Using Taste to Solve a Mystery 167
 Food that Pops 177

Combining Your Senses Activities 183

I Can Sense You Like Popcorn 185
 A Jar Full of Mystery 189
 Mystery Boxes 197

National Science Education Standards Matrix 202

Activities Indexed by Science Topics 204
