

# Contents

Acknowledgments .....	vii
Foreword.....	viii
Using This Book.....	1
Part 1: Awareness.....	11
Awareness 1: Learn Like a Scientist.....	12
Awareness 2: Getting Excited About Motion Toys .....	16
Awareness 3: How Can We Move These Books? .....	20
Awareness 4: All Fall Down .....	23
Awareness 5: Go Down the Hill.....	26
Part 2: Exploration .....	35
Exploration 1: Push or Pull .....	36
Exploration 2: How Things Move.....	40
Exploration 3: Ball Day .....	44
Exploration 4: Rolling, Rolling, Round and Round.....	50
Exploration 5: Wheel Day .....	54
Exploration 6: Moving Fun on the Playground .....	60
Exploration 7: Sliding, Sliding, Down and Down .....	65
Exploration 8: Going, Going, Up and Down.....	71
Part 3: Inquiry.....	77
Inquiry 1: Ramp It Up.....	78
Inquiry 2: Rough Road Ahead .....	82
Inquiry 3: Up and Down Seesaw.....	86
Part 4: Advanced Inquiry.....	91
Advanced Inquiry 1: Hill and Loop Challenges.....	92
Advanced Inquiry 2: Design a Fun Ramp Ride .....	96
Advanced Inquiry 3: I Wonder. . . ..	99

Part 5: Application .....	105
Application 1: Loaded Question .....	106
Application 2: Design Some Fun .....	110
Application 3: Bottle Bowling.....	114
Part 6: Motion Across the Curriculum.....	119
Across the Curriculum 1: Writing to Learn.....	120
Across the Curriculum 2: Book Adventures.....	122
Across the Curriculum 3: Wheels That Help .....	124
Across the Curriculum 4: Fun and Games.....	126
Across the Curriculum 5: Motion in Art.....	128
Across the Curriculum 6: Safety in Motion .....	130
Part 7: Science for Young Learners.....	133
Why Early Childhood Science? .....	134
Teaching with Learning Cycles.....	142
Documenting Learning.....	145
Part 8: All About Motion.....	147
Our World Is Constantly in Motion.....	148
References .....	153
