

Table of Contents

Introduction to Polymers	5
Safety First	10
Testing Polymer Densities	11
Gluep	12
Part A: Make Some Gluep	13
Part B: Observe the Properties of Gluep	14
Part C: Demonstrate Cross-Linking	14
Polyvinyl Alcohol	15
Part A: Make and Test PVA Film	16
Part B: Make PVA Fibers and Investigate Their Flexibility	16
Part C: Make Your Own Slime	17
Defoaming Packing Peanuts	18
Polymer Stretch Test	19
Part A: Grocery Bag Stretch	19
Part B: Other Stretchy Things	20
Part C: Cockeyed Messages	20
Skewering Polymers	21
Part A: Pencil It In	21
Part B: Balloon on a Stick	21
Shrinking Plastic	22
Part A: Shrunk Polystyrene Crafts	22
Part B: Polystyrene Shrink Test	23
Part C: Triangle Change	23
Invisible Crystals	25
Part A: Crystal on a String	25
Part B: Overhead Projector Demonstration	26
Super Slurper	27
Part A: Experimenting with Super Slurper	27
Part B: How Much Water Can a Disposable Diaper Hold?	28
Polymers and Polarized Light	29
Part A: Overhead Projector Demonstration	30
Part B: Cellophane Tape Kaleidoscope	30
National Science Education Standards Matrix	32
