

Table of Contents

Contributors	iii
Principal Investigators	iv
Partners for Terrific Science Advisory Board	iv
Acknowledgments	vi
Foreword	vii
Partnership Network	viii
An Invitation to Industrial Chemists	ix
How to Use This Teacher Resource Module	1
Employing Appropriate Safety Procedures	3
Background for Teachers	6
Overview of the Pharmaceutical Chemistry Industry	6
The Hoechst Marion Roussel, Inc. Research Institute	9
Content Review	10
Using the Activities in the Classroom	18
Pedagogical Strategies	18
Annotated List of Activities and Demonstrations	20
Curriculum Placement Guide	21
Activities and Demonstrations	23
1. Making a Polymer Foam	25
2. Common Proteins: Reactions and Denaturation	31
3. Speeding Up Elimination of Carbon Dioxide from the Blood	37
4. Reactions with Potato Enzyme	43
5. Sizing Up DNA	49
6. Paper Chromatography of Inks	57
7. Separating Molecules by Gel Filtration	65
8. Components of an Aspirin Tablet	75
9. Cost/Mass Analysis of Different Aspirin Brands	83
10. Making Aspirin and Oil of Wintergreen	87
Addressing the National Standards	93
Chemical Supply Companies	100
