

Contents

Acknowledgments	vii
Foreword	viii
What Are the <i>Palette of Color</i> Monographs?	1
How to Use <i>The Chemistry of Vat Dyes</i>	2
Employing Appropriate Safety Procedures	3
Part A: Teacher Background Information	5
What Are Vat Dyes?	7
What Is a Dye?	7
Chemical Reactions of Vat Dyes	7
Dyeability of Various Fibers	9
Notes and Setups for Activities	13
Activity 1: What Is Denim?	13
Activity 2: How Is Synthetic Indigo Prepared?	13
Activity 3: How Is Indigo Used as a Vat Dye?	14
Activity 4: What Is the Best Way to Develop an Inkodye Color?	16
Activity 5: Is Inkodye Equally Effective on All Types of Fabric?	17
Supplementary Activities	18
Literature Integration	18
Other Cross-Curricular Integration	21
References	22
Part B: Classroom Materials	23
What Makes Blue Jeans Blue?	25
Activity 1: What Is Denim?	25
Overhead 1: The Woven Structure of Denim	27
Overhead 2: Ring-Dyed Threads in Denim	28
Historical Setting	29
Student Background 1: A Brief History of Dyeing	29
What Are Vat Dyes?	30
Student Background 2: The Chemistry of Vat Dyes	30
Overhead 3: Oxidation-Reduction Reaction of Vat Dyes	31
What's a "Mood Indigo?"	32
Student Background 3: Indigo	32
Overhead 4: Indigo Structure	33
Activity 2: How Is Synthetic Indigo Prepared?	34
Activity 3: How Is Indigo Used as a Vat Dye?	37

What's New in Vat Dyeing?	39
Activity 4: What Is the Best Way to Develop an Inkodye Color?	39
Dyes and Structures of Fibers	41
Student Background 4: Textile Fibers and Dyes	41
Overhead 5: Fiber Polymer Structures of Cellulose and Polyester	43
Activity 5: Is Inkodye Equally Effective on All Types of Fabric?	44
Addressing the National Standards	46
