

## Contents

### Introduction

● Acknowledgments.....	2
● Foreword .....	3
● EASYGuide™ Edition Features .....	4
● Model Building with K'NEX® .....	7
● Teaching Students to Be Scientists .....	8
● Activity Model of the Scientific Inquiry Process .....	10
● Components of a Well-Designed Graph.....	12
● Writing to Inform.....	15
● Writing to Learn.....	16
● Safety First.....	18
● References.....	19

### Activities

● Six-Cent Top.....	21
● Crash Test .....	35
● Ramps and Cars .....	47
● Understanding Speed .....	57
● Car Coaster.....	69
● Push and Go .....	83
● Exploring Friction.....	93
● Toy That Returns .....	103
● Bounceability .....	117
● Sound Off .....	133
● Balance This!.....	149
● Skyhook.....	161
● Gear Up, Gear Down.....	171
● Measuring Mass.....	189
● Seesaw Forces .....	201
● Levers at Work.....	219
● Pulley Power Basics.....	241
● More Pulley Power .....	253
● Static Cling.....	269
● Magnet Cars.....	285
● Doc Shock .....	295
● From Magnets to Motors.....	309

### Appendix

● Activities Indexed by National Science Education Standards for Grades K–4.....	329
● Activities Indexed by National Science Education Standards for Grades 5–8.....	330
● Activities Indexed by National Science Education Standards for Grades 9–12 .....	331
